

**BUREAU
VERITAS**

Bureau Veritas Magyarország Kft.

VERIFICATION STATEMENT

Bureau Veritas Hungary reviewed the online GHG **emission calculator** of Carbon Solutions Global Ltd. (available on the following access route: <http://www.carbonsolutions.cc/calculator>), including the algorithms, calculations, data sources applied by this tool and other supporting verification evidences, and certifies that figures and calculations behind are authentic, based on worldwide accepted emission factors, technical data from DEFRA database, ICAO database, Paypro Global Inc. car database or calculated by BECO Hungary (and its legal successor LuTz Consulting) environmental consulting company. Calculations of LuTz Consulting (and its predecessor BECO Hungary) are not subject to this verification. This Certification is valid exclusively for the business module of the above mentioned calculator, version under serial number 1., issued on 24th of April 2013. The calculator is subject to regular random independent testing by BV and this certificate is valid till the lifetime of the software version under serial number 1.

The **carbon credits** offered by Carbon Solutions Global Ltd. for offsetting emissions meet internationally accepted criteria (Gold Standard or VCS) - as it is proven by certificates issued by acknowledged verifiers. Offset workflow run by Carbon Solutions ensures in a transparent, traceable and verifiable manner that the credits are retired after the purchase.

The system has been verified by Bureau Veritas Hungary who also performs semi-annual audits in order to maintain the verified status.

Budapest, 24th April 2013

Zsolt BÁCSKAI

Technical Manager, Bureau Veritas Magyarország Kft.
